There's usually a small piece of work you can do at home at the end of each tutorial, an assignment to complete at the end of each term and a full comprehensive reading to hand in at the end of the course. All of these are optional to you, however, a certificate will be earned on completion of the course, once covering 60% or above overall marks.

This certificate can then be used to take you even further in astrology, if you wish to join another school to follow a diploma course.
